

I would like to discourage the replacement of the FM translators for LPFM. K-LOVE and AFR are two stations that I listen to regularly as I travel the country and my local area. I know that when listening to K-LOVE, I do not have to worry about what my children will hear, it is family friendly. My community will miss K-LOVE in a tremendous way. We are unable to get such broadcasting anywhere else. Because these stations are listener supported - we make the choice to support or not to - therefore the listener interest are put first. This is unlike commercial stations, where the advertisers or management lead the decisions without much considerations for the public. Media has such a tremendous impact on our society, I believe that stations such as K-LOVE and AFR will make a positive impact, instead of leading to the further disseningration of our society as we once knew. I appreciate your attention to my comment. Feel free to contact me regarding this statement.
